

# VIRUSES AND GERMS LOVE TO HANG AROUND YOUR HOME.

Call us today for a consultation on how to eliminate them.

## Coronavirus & Sars CoV2

As an essential service industry while all other areas may continue to close, we are on the front lines of protecting public health on a daily basis. We will continue to service California's food production facilities, grocery stores, medical institutions, multifamily housing units, warehouses, homes, and businesses. We cannot afford to have our medical facilities, grocery stores, or homes uninhabitable due to pests and pest related diseases, particularly as citizens are told to stay home.

As such we ask that you help us as we continue to service your facility so we can keep our employees safe, healthy, and mitigate exposure to the COVID-19 virus as much as possible by doing the following:

**Residential Exterior Sanitizing. We care about your health. We have included Exterior Sanitizing Free a \$0 Charge with your pest control service.(door handles, latches, trash can handles, touch points)**

Residential Interior Sanitizing services available. The price starts at \$200 starting at 1,500 sq. ft. Call for details with further information. (This includes hard surface areas like counters, tables, doors handles, knobs, railings, etc.)

Commercial Services. We offer sanitizing and disinfecting services for all types of businesses from warehouses, restaurants, offices, gymnasiums, hotel rooms, day cares, etc. Call us for a quote.
